Pardon me, @US\_FDA, why do @pfizer eCRFs not match the original site source for site 1096 & 1128? Nevermind, criminals.

You should all go to jail & your bank accounts drained and put into a fund for the vaccine injured!

What are eCfrs?

2 6 23

**Brook Jackson**   @IamBrookJackson · Feb 13 ...

Electronic case report forms. The clinical trial sites collect data on paper & then should enter that same data into Pfizer's database or eCRFs. The FDA only sees the clean version of eCRFs, never the site data...they bent over & took Pfizer's word that there was nothing there.

And so this means the FDA probably never took a second look at Pfizer's data. Is this why Pfizer wanted to "intervene" and "help" the FDA redact documents before 3/1? Hmmm

Replying to @\_ShotaManDown @US\_FDA and @pfizer

The FDA & US govt knew about the Ventavia data and are complicit in fraud, period. There is no question or any way to cover that up.

My question is: When will Pfizer and those involved be held accountable? They need to answer for what they've done.

Can I ask a simple question? At this point in time who actually is the one person/entity that could haul all of this in, press pause and hold Pfizer & friends to account?

Here is a big group of people trying really hard to bring evidence to the public, which hopefully leads to some accountability.

King David @fswarrior · Feb 6

Well here it is folks, this is the best shot we have at holding these people accountable for the pandemic.

I would assume fraud would negate their immunity?
